STARTER PACK

Whether you're a budding start-up seeking a captivating visual identity or a well-established enterprise preparing to launch an exciting new campaign, our innovative creative Starter Pack is the ultimate solution for unlocking the potential of your brand.

## What's the process?

1

You've downloaded the pack, so now it's time to fill in our [\*\*questionnaire here\*\*](#) so we can find out more about what you're looking for.

2

We'll be in touch for a 30 minute consultation to ensure we've understood your brief regarding the information you've provided.

3

We'll send through final budgets for the project, and as soon as we get the paperwork signed, we'll start the work! We'll aim to have the first draft to you within a week. You'll have a total of two rounds of amends included in the final budgets.

4

When commenting on amends, the first round will be done via email. If a second one is needed, we'll arrange a 30 minute call to discuss any changes to allow full understanding of your feedback.

*Once the final project is completed and you're happy, we'll send over a range of file types and the original design files for you to use as you please. It's that easy!*

## Our Expert Design Team: Your Creative Edge.

**Antonia Gifford**

Group Creative Lead

**Hannah Collins**

Senior Creative Designer

**Ewan Pogson**

Junior Creative Executive

# Starter Pack
